Re: Answer to seedmix
Reclamation cost estimate

Mr. Lynn kunzler:

After reviewing the seedmix diagram that you recently provided us appears to be acceptable and we will be followed as per outlined by the diagram.

In regards to reclamation costs we were able to take a few moments and review your line items. It appears from our prospective that they are fairly accurate numbers. We will follow this outline at time of reclamation.

We appreciate your time in this matter. If you have any questions or concerns regarding these issues feel free to call me at (435) 528-5342.

Thank you,

Bryce Haas
President
